MART 120: Creative Coding

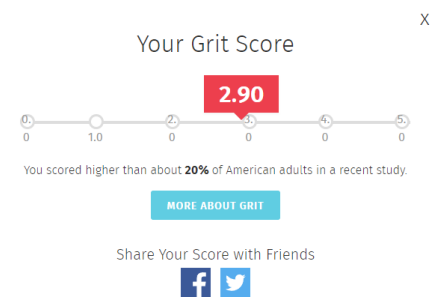

Week 3 Challenges

Grit

What is grit? Grit in my own words is the ability to overcome the voice in your head telling you to quit. That same voice that tells you to hit the snooze button or the one that stops you in the middle of doing homework to procrastinate and do something you enjoy. In the Angela Duckworth video she tied in the Growth Mindset that we talked about last week as well it put grit into perspective for me.

Challenges

One challenge that I've overcome is struggling to find my path in life. Deciding what I want to do for the rest of my life is hard and not super attainable! So, what I decided is I'll just have to do whatever seems best now and focusing on having the grit to see it done really makes that challenge seem easier and more attainable. One day at a time!

P.S I'm not too certain what else I needed to add to this small paper because there wasn't anything on the homework slide that addressed it. Regardless thanks!
